Subject: Claims based upon the 3Com Power of \$Zero Solution

071203 Fee
Agreement - 3Com L

Paulette,

It is my opinion that the circumstances under which your company purchased the 3Com Power of \$Zero Solution provides a sufficient basis for asserting claims against 3Com Corporation (and potentially others), based upon material misrepresentations which occurred in connection with the transaction. I am quite familiar with the relevant players in this matter, and I am now prepared to offer to represent your company in this litigation.

I am still in the process of identifying the core group of Plaintiffs, and organizing this litigation to provide the greatest strategic advantages. To that end, short of sending 3Com a detailed demand in accordance with the Deceptive Trade Practices Act, the lawsuit will not be filed until after the New Year. (Typically, this statutory notice requires a 60 day period before filing.) However, it is my opinion that once we are ready to file suit, the results should come very quickly. I would certainly expect (and intend to force 3Com to provide) a reasonable settlement offer within no more than six-months after filing.

I have attached a copy of my standard Power of Attorney and Contingent Fee agreement, applicable to this litigation. Please review it, and if you have any questions, please call or e-mail me. Once reviewed, please provide (via e-mail) all pertinent contact info, and details as to who will execute the Fee Agreement.

Once we have established an attorney-client relationship, I will provide a more detailed roadmap, as to how the matter will proceed. In the meanwhile, please let me know if you have any questions or concerns.

Sincerely,

Simon H. Hughes
